

FOREWARD

This report was prepared in fulfillment of the Estero Bay and Watershed Assessment being conducted by PBS&J/Coastal Environmental, Inc. for the South Florida Water Management District under Contract No. **C-7784**.

ACKNOWLEDGMENTS

The authors of this report wish to acknowledge the contributions of a number of people. We would like to thank South Florida Water Management District staff, primarily Rick Alleman and Margaret Bishop, project managers for the Estero Bay and Watershed Assessment Plan. In addition, Terry Bray of Lee County provided county GIS map data and Keith Kibbey of Lee County Environmental Lab provided water quality data. David Burr and Tim Walker of the Southwest Florida Regional Planning Council also provided information and insight in this document. The authors also wish to thank the Agency on Bay Management for their assistance in the completion of the work. Johnson Engineering, Inc., specifically Lonnie Howard and Mike Lore provided background information on basin boundaries and hydrology. Other agencies which provided staff assistance and information include the Charlotte Harbor National Estuary Program, the Florida Department of Environmental Protection, The U.S. Geological Survey, Florida Game and Freshwater Fish Commission.

We would also like to acknowledge the efforts of Debra Childs for the GIS work; Susan Janicki, David Wade, and Andy Squires for data compilation, management and analysis; and Candace Daniel for word processing support.

TABLE OF CONTENTS

1.0	INTRODUCTION	1-1
1.1	Study Area	1-2
1.2	Background	1-4
1.3	Basin Description Objectives	1-6
2.0	DESCRIPTION OF STUDY AREA	2-1
2.1	Topography	2-1
2.2	Geology	2-1
2.2.1	Geomorphology	2-2
2.2.2	Geohydrology	2-4
2.3	Soils	2-6
2.4	Rainfall	2-8
2.5	Existing and Future Land Use	2-16
2.5.1	Existing Land Use	2-16
2.5.2	Future Land Use	2-18
2.6	Surface Water Hydrology and Water Management Practices	2-19
2.7	Development Patterns	2-20
2.8	Research Activities	2-27
3.0	SUBBASIN DELINEATION	3-1
3.1	Methods	3-1
3.2	Results	3-2
4.0	SECONDARY BASIN DESCRIPTIONS	4-1
4.1	Ten-Mile Canal	4-1
4.1.1	Topography	4-2
4.1.2	Soils	4-2
4.1.3	Existing Land Use	4-3
4.1.4	Geologic and Drainage Features	4-5
4.1.4.1	Hydrogeology	4-5
4.1.4.2	Surface Drainage	4-7
4.1.5	Management Practices	4-7
4.1.5.1	Urban Management Practices	4-7
4.1.5.2	Agricultural Management Practices	4-14
4.2	Six-Mile Cypress Slough	4-23
4.2.1	Topography	4-24
4.2.2	Soils	4-24
4.2.3	Existing Land Use	4-25
4.2.4	Geologic and Drainage Features	4-27

	4.2.1.4 Hydrogeology	4-27
	4.2.1.2 Surface Drainage	4-29
4.2.5	Management Practices	4-29
	4.2.5.1 Urban Management Practices	4-29
	4.2.5.2 Agricultural Management Practices	4-37
4.3	Mullock Creek	4-39
	4.3.1 Topography	4-39
	4.3.2 Soils	4-40
	4.3.3 Existing Land Use	4-41
	4.3.4 Geologic and Drainage Features	4-43
	4.3.4.1 Hydrogeology	4-43
	4.3.4.2 Surface Drainage	4-45
	4.3.5 Management Practices	4-45
	4.3.5.1 Urban Management Practices	4-45
	4.3.5.2 Agricultural Management Practices	4-48
4.4	Estero River	4-48
	4.4.1 Topography	4-49
	4.4.2 Soils	4-49
	4.4.3 Existing Land Use	4-50
	4.4.4 Geologic and Drainage Features	4-52
	4.4.4.1 Hydrogeology	4-53
	4.4.4.2 Surface Drainage	4-54
	4.4.5 Management Practices	4-54
	4.4.5.1 Urban Management Practices	4-54
	4.4.5.2 Agricultural Management Practices	4-59
4.5	Imperial River	4-61
	4.5.1 Topography	4-61
	4.5.2 Soils	4-61
	4.5.3 Existing Land Use	4-63
	4.5.4 Geologic and Drainage Features	4-66
	4.5.4.1 Hydrogeology	4-66
	4.5.4.2 Surface Drainage	4-68
	4.5.5 Management Practices	4-68
	4.5.5.1 Urban Management Practices	4-68
	4.5.5.2 Agricultural Management Practices	4-76
4.6	Cow Creek	4-79
	4.6.1 Topography	4-79
	4.6.2 Soils	4-80
	4.6.3 Existing Land Use	4-81
	4.6.4 Geologic and Drainage Features	4-82
	4.6.4.1 Hydrogeology	4-83

	4.6.4.2 Surface Drainage	4-84
4.6.5	Management Practices	4-84
	4.6.5.1 Urban Management Practices	4-85
	4.6.5.2 Agricultural Management Practices	4-89
4.7	Hendry Creek	4-90
4.7.1	Topography	4-90
4.7.2	Soils	4-90
4.7.3	Existing Land Use	4-91
4.7.4	Geologic and Drainage Features	4-93
	4.7.4.1 Hydrogeology	4-94
	4.7.4.2 Surface Drainage	4-95
4.7.5	Management Practices	4-95
	4.7.5.1 Urban Management Practices	4-96
	4.7.5.2 Agricultural Management Practices	4-108
4.8	Spring Creek	4-109
4.8.1	Topography	4-109
4.8.2	Soils	4-109
4.8.3	Existing Land Use	4-110
4.8.4	Geologic and Drainage Features	4-113
	4.8.4.1 Hydrogeology	4-113
	4.8.4.2 Surface Drainage	4-114
4.8.5	Management Practices	4-114
	4.8.5.1 Urban Management Practices	4-115
	4.8.5.2 Agricultural Management Practices	4-119
4.9	Corkscrew Swamp	4-119
4.9.1	Topography	4-120
4.9.2	Soils	4-120
4.9.3	Existing Land Use	4-121
4.9.4	Hydrology and Drainage Features	4-124
	4.9.4.1 Hydrogeology	4-124
	4.9.4.2 Surface Water Hydrology	4-125
4.9.5	Management Practices	4-125
	4.9.5.1 Urban Management Practices	4-126
	4.9.5.2 Agricultural Management Practices	4-126
4.10	Lake Trafford	4-133
4.10.1	Topography	4-134
4.10.2	Soils	4-134
4.10.3	Existing Land Use	4-135
4.10.4	Geologic and Drainage Features	4-137
	4.10.4.1 Hydrogeology	4-137
	4.10.4.2 Surface Drainage	4-139

4.10.5	Management Practices	4-140
4.10.5.1	Urban Management Practices	4-140
4.10.5.2	Agricultural Management Practices	4-140
4.11	Barrier Islands	4-143
4.11.1	Topography	4-143
4.11.2	Soils	4-143
4.11.3	Existing Land Use	4-144
4.11.4	Geologic and Drainage Features	4-146
4.11.4.1	Hydrogeology	4-146
4.11.4.2	Surface Drainage	4-147
4.11.5	Management Practices	4-147
